Is it legal if an employee has a doctor's prescription? When can someone be tested and for what?

**Best Practices and Products for Insurance: Health, Workers Comp, Liability** – Are you aware of all the new options/plans available to potentially reduce your costs and earn rebates?

**Fatigue and Fitness for Duty** – We are working our people longer hours to keep up with demand. Does your company properly look for signs of fatigue? Do you have a Workers Comp disaster in your future?
